Hands-On Learning

Experiential learning is one of the best ways to apply skills and concepts learned in the classroom to a practical setting. At Nipissing, we offer a wide range of hands-on learning opportunities, resulting in uniquely employable graduates who are ready to lead.

Co-ops, Placements, and Internships

In many programs, experiential learning opportunities are built right into the curriculum in the form of placements, volunteer opportunities, professional internships, co-ops and practicums. Through these experiences, students develop competencies in communication, critical thinking, collaboration, problem solving and leadership that help pave the way for future success.

BBA Co-op Program

Students in the School of Business BBA Co-op Program alternate academic terms on campus with full-time work terms. Students apply theoretical knowledge from course studies in the workplace and return to the classroom with practical workplace experience. Co-op helps students determine their strengths and interests, test-drive potential careers and gain valuable experience in their discipline. Questions? Email business@nipissingu.ca to learn more.

Nipissing hosts an annual Undergraduate Research Conference and invites undergraduate researchers from across Ontario to participate. Learn more at nipissingu.ca/ugrc

iLEAD Business Experience Certificate & Expeditions

The George and Helen Vari Simulation Centre offers an immersive, interactive learning environment designed to replicate a variety of real-life situations, procedures, and environments.

The state-of-the-art space features four hospital simulation suites with life-like manikins that can mimic a variety of healthcare and other professional situations. Students are able to build competency in their skills, practice critical thinking, and make mistakes in a safe, supportive, and controlled environment to help prepare them for professional practice.

Using immersive projection technology, two dedicated rooms can be transformed into various settings such as a hospital, clinic, large group gathering or disaster scene. Students navigate the environment using interactive touch points on the walls.

The Centre also features a home apartment setting that can simulate home visits, crime scene investigations, and more for students from multiple disciplines such as nursing, social work, and criminal justice.
